Summary

Software Developer at BLIP, developing backend software for FanDuel. Before that, I spent almost five years at Critical TechWorks building software for BMW, including the BMW Online Shop, a large-scale product with a high volume of users across many countries. Experienced in both frontend and backend, with Java, TypeScript and Angular.

Technical Skills

- Java
- TypeScript/JavaScript
- Angular
- Spring and Quarkus
- SQL
- Git
- REST APIs

Personal Skills

- Organization and teamwork
- Scrum methodology

Professional Career
